Artisan® Series

The simplicity of the Artisan® Series panel is its best design feature. Uniform dimensions and a clean appearance allow the designer to plan modules, eliminate complicated pieces and follow wall curvatures. The Artisan® panel can be vertical, horizontal, perpendicular or skewed to the building line, allowing the designer multidimensional freedom to create.

Features and Benefits:
- Artisan® Series panels use the positive fastened method and are attached directly to the substructure. The fastener is concealed behind the flush face.
- Artisan® panels are used for soffits and interior liners. These panels can be attached to the girts or a solid substructure.
- Artisan® Series carries Florida approvals.

Product Specifications:
- **Applications**: Soffit and Interior liner
- **Coverage Widths**: 8”, 10”, 12”
- **Panel Attachment**: Concealed
- **Fastening System**: Gauges: 24 (standard); 26, 22 (optional)
- **Finishes**: Smooth (standard); Embossed (optional)
- **Coatings**: Galvalume Plus®, Signature® 200, Signature® 300, Signature® 300 Metallic
