

CECO BUILDING SYSTEMS

HANGARS / AIRPORT FACILITIES

Let us make your hangar project easy for you!

Ceco Building Systems, a leader in the metal building industry since 1947, offers high quality buildings through a network of 700 local authorized Ceco Builders, general contractors who provide turnkey construction services.

Using the Design-Build method of construction, Ceco Builders can work with you from the initial feasibility and planning stage through design and construction to occupancy. They can make the complex task of building a hangar seem easy and save you time and money in the process ... all with single source responsibility ... and with full Ceco support.

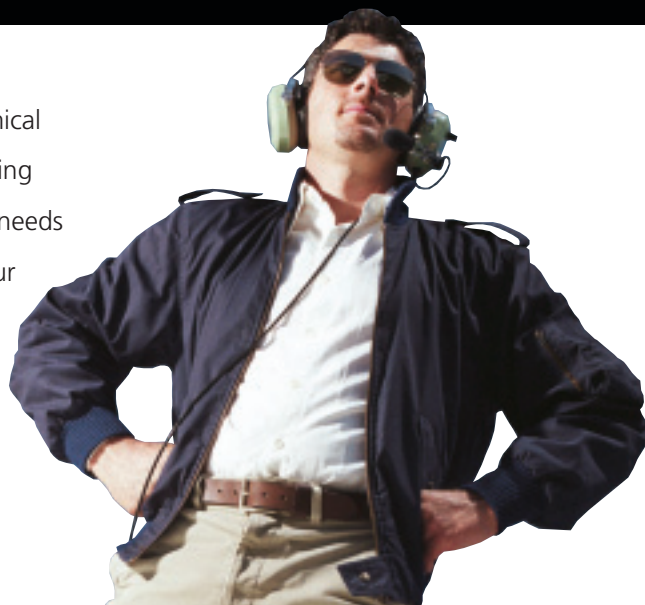

Ceco buildings are the ideal answer for hangars and other airport facilities. The good looks and low life cycle costs meet the demands of the airport services manager. Our roofs are made of GALVALUME® material which is warranted for 20 years, but which independent studies have shown may last for 30-40 years. Walls also are offered with extended life paint warranties.

FACILITIES

The Fixed Base Operator has special needs. Using the proven and economical Ceco clear span system, the Ceco Builder can work with you in the planning and budgeting process ... design the building to fit your exact functional needs and specifications and help you get airport approval ... then construct your project quicker to get you in business!

Corporate hangars are always an exciting challenge ... combining a sharp architectural look with interior treatments that reflect the image of the corporation ... all within a budget that will keep the CFO happy.

In fact, Ceco Buildings are ideal for any type aviation facility...from FBOs to corporate hangars to military to maintenance/refurbishing operations ... to major airline facilities ... with clear spans to 250' and with a variety of door options.

Contact Ceco and let us help make your next hangar building project a pleasant and successful endeavor.
