INNOVATION MEETS ECONOMY

Realize your vision using sustainable, all-steel components

QUALITY, VALUE & SPEED OF CONSTRUCTION

SAVE TIME AND MONEY

- ◆ CBS-Xpres® significantly reduces project detail and design time by automating core functions. Quick and convenient pricing makes ordering your low-complexity building easy!
- ◆ Reduced on-site labor costs, as most connections utilize A325 bolts for fast and easy installation.
- ◆ Metal systems can bear greater loads, requiring fewer materials.
- ◆ Manufactured from quality all-steel components requiring minimal maintenance.
- ◆ Customized to your exact specifications and engineered to meet the building code requirements of your area.

PRECISION-ENGINEERED

All CBS-Xpres buildings are made with the highest level of integrity and durability with high-quality materials produced by IAS-accredited manufacturing plants. Rigid quality and production controls and experienced personnel ensure our pre-engineered frames, secondary steel, and roof and wall panels fit correctly every time. Each CBS-Xpres building is engineered to meet the building code requirements* for your area.

**Codes and loads vary by site. Buyers must verify codes and loads for each site with local building officials.*
